General Provision

GIZ procures an event and case management software and development of related dashboards as Software-as-a-Service.

Contractually, this procurement and the subsequent service delivery will be based on two EVB-IT contracts:

- **EVB-IT Services**
- **EVB-IT Cloud**

The **EVB-IT Cloud Contract** and the associated general terms and conditions (GTC) apply to the Continued provision, hosting and maintenance of the digital monitoring for two GIZ Sudan projects as Software-as-a-Service (section 2.1, 2.3, 2.4 ToR) as well as to services related to initial technical setup of the tendered software.

For any time and effort-based service contract components (section 2.2, 2.5), the EVB-IT Service Contract including the associated **EVB-IT Service GTC** shall apply.

Since both contracts relate to the same procurement, they have the same contract number.
